FILE LOC. R-1B

OTHER RDMS# 100873

RDMS DocID 00100873

Per letter 4-11-83

George Dews

4-20-83

I called and explained what the situation was with MacDermid. He said they would have an inspection done to make sure that they are not doing electroplating or storing > 90 days.

Candy Alder.

5-26-83

Ken Lanouette 203-227-8497

I explained to him why no action had taken place on their request. He said they supply chemicals to the plating industry. Any plating done on a research level. Waste is not generated from this area but from manufacture of chemicals. He will talk to DEP about coming out on an inspection.

I told him that he does have the option to store < 90 days if the co. still wants to consider the waste haz. => N.P.R.

C. Alder
